

## OVERVIEW FOR LEAGUE OF LOCAL GOVERNMENTS

### Overview

The State of Delaware Enterprise GIS (FirstMap) system serves as a portal for commonly used by State Agencies, Federal Agencies, County and Municipal Governments. The data in these services can be added to maps, used within applications and utilized in ArcGIS Online Web Maps. Agreements between State Agencies and local governments ensure data are kept up to date. Municipal Governments can use FirstMap free of charge.

### Key Links for FirstMap

FirstMap Website: Here you will find information and updates of interest. Including links to a variety of documents to help understand and use FirstMap services and applications.

<http://firstmap.delaware.gov>

Quick Reference Sheet: This document gives a quick introduction to how to connect to the FirstMap services through ArcGIS Desktop as well as ArcGIS Online.

<http://firstmap.gis.delaware.gov/pdfs/public/FirstMap-QuickRefSheet.pdf>

Geocoding Service: This is a service set up through FirstMap which uses Delaware specific data for addresses to allow accurate geo-coding of addresses for use on maps. This service can be accessed through ArcGIS Desktop, ArcGIS Online and other GIS software.
